GAZA WATER CONFINED **SCONTAMINATED**

NO REPAIR, NO

INFLOWS <u>SEA WATER</u> INTRUSION SEWAGE

POLLUTION **SOURCES** & **OVER-**ABSTRACTION

Withoutoutside supplies, the Strip is condemned to steadily overpump its groundwater. **Dropping water** levels invite seawater intrusions from the coast and accelerate natural brackish groundwater inflows from the Negev.

HIGH RISK 26% of disease in Gaza is water-related.

AGRICULTURAL BY-PRODUCTS SOLID WASTE **SEWAGE** SOUTHEAST BRACKISH GROUNDWATER

HIGH NO

Nitrate levels are

above the WHO levels

for safe consumption.

LEVELS

DEVELOPMENT

Restrictions imposed by Israel and international aid actors on materials entry have led to a break down in water and sewage infrastructure, causing contamination of water supply.

ISRAELI WARS ON GAZA

Recurring Israeli bombardments have caused major damage to Gaza's water, sanitation, and hygiene infrastructure.
